

# Windrock CARE Support Program

## ONLINE SYSTEMS ANNUAL SUPPORT PLANS

FOR PLATINUM™, AUTOBALANCE® & ON-GUARD™

Windrock Online Systems are valuable tools that help ensure critical machinery assets are in proper mechanical health, operating safely and delivering on promised performance. To maximize your system's potential, Windrock offers a comprehensive program

designed to provide support for not only your system hardware and software, but for YOU, the user, as well. Offering three levels of support (Basic, Preferred, Premium), the Windrock CARE Support Program can fit both your needs and budget.

## Features of the Program Include:

### **Unlimited Product Support**

Need help calibrating your sensors? Not sure how to adjust your alarm levels? Product Support Technicians are available via phone or email for one-on-one guidance through Windrock MD software and online system operation. *(Basic, Preferred, Premium)*

### **Product Repair/Updates**

Accidentally damaged your system power supply? Worried about your hardware staying up to date? Windrock will provide all labor, parts and materials necessary to maintain your system electronics and in-cabinet hardware. Priority repair turnaround and return shipping is included as well. *(Preferred, Premium)*

### **Technical Service Support**

Need a refresher on determining compressor valve leakage? Want an expert equipment analyst to report on your system data? Technical Service Support Tickets provide access to Windrock's highly experienced team of Equipment Analysts. *(Premium)*

### **Software Updates**

Troubled about compatibility with a new computer? Want to always have access to the latest analysis tools? Windrock MD and online system software updates are available on our website, guaranteeing you always have the latest software. *(Basic, Preferred, Premium)*

### **Onsite Visits/Remote Data Review**

Concerned about the accuracy of your data? Is your system showing signs of wear? Twice per year, Windrock will visit your site to tune-up your system. Windrock will also monitor your data remotely and alert of any potential problems on a monthly basis. *(Premium)*

### **Technical Services Discounts**

Want to attend an analysis training course? Need onsite assistance with problem machines? Enjoy discounted access to Windrock's team of Equipment Analysts and Technical Trainers for in-house training classes and onsite training and services. *(Premium)*

Windrock's CARE Support Program offers a cost-effective solution for the guaranteed success of your continuous monitoring program. By providing unmatched product and customer support, the CARE Support Program allows you to utilize Windrock's industry-leading knowledge and experience to avoid catastrophic machinery failures and optimize the economic benefit of your online systems.
